

ImmuPharma PLC
("ImmuPharma" or the "Company")

Admission today to trading on Euronext Growth Brussels

ImmuPharma PLC (LSE:IMM | Euronext Growth: ALIMM), a specialist drug discovery and development company, is pleased to announce that, this morning at approximately 09.00am (GMT), ImmuPharma will commence trading on Euronext Growth Brussels ("Euronext") under ticker 'ALIMM'.

This new listing does not affect the trading of ImmuPharma's shares on AIM, nor is there any intention from the Company to raise additional funds from either AIM or Euronext.

The dual listing on Euronext Growth Brussels aims to further increase the visibility of ImmuPharma's shares with European investors, aligned with the investment thesis for ImmuPharma and specifically Lupuzor™ being repositioned, following the Company's recent deal with US Avion Pharmaceuticals, who are funding an international Phase III trial for ImmuPharma's lead programme, Lupuzor™. ImmuPharma looks forward to providing further progress updates on the Phase III program with Avion, as well as entering into additional partnerships outside of the US.

This announcement contains inside information for the purposes of Article 7 of Regulation (EU) 596/2014. ("MAR")

About ImmuPharma PLC

ImmuPharma PLC (LSE AIM: IMM – Euronext Growth: ALIMM) is a specialty biopharmaceutical company that discovers and develops peptide-based therapeutics. The Company's portfolio includes novel peptide therapeutics for autoimmune diseases, metabolic diseases and cancer. The lead program, Lupuzor™, is a first-in class autophagy immunomodulator which is in Phase III for the treatment of lupus and preclinical analysis suggest therapeutic activity for many other autoimmune diseases that share the same autophagy mechanism of action. ImmuPharma and Avion Pharmaceuticals signed on 29 November 2019, an exclusive licence and development agreement and trademark agreement for Lupuzor™ to fund a new international Phase III trial for Lupuzor™ and commercialise in the US. About Avion Pharmaceuticals

Avion Pharmaceuticals, LLC is a US-based specialty pharmaceutical company formed to develop, acquire and market a portfolio of innovative pharmaceutical products in the Women's Health and other therapeutic categories aligned with our mission to improve the quality of patient lives. Avion Pharmaceuticals focuses on identifying opportunities to develop, acquire and enhance the market potential of innovative, commercially available therapeutics and late-stage development drugs to fulfil unmet medical needs. For additional information about Avion Pharmaceuticals, visit www.avionrx.com.

About Lupuzor™ and Lupus

Lupuzor™ is ImmuPharma's lead compound, a peptide therapeutic and a first-in class autophagy immunomodulator for systemic lupus erythematosus (SLE or lupus) a potentially life-threatening auto-immune disease. Lupus is a chronic inflammatory disease which is thought to affect some 5 million individuals worldwide. The current standard of care still consists of drugs which have many side-effects and limited efficacy. Despite the need for an effective treatment, only one new therapy, namely GlaxoSmithKline's Benlysta, has been approved to treat the condition over the past 50 years. As such, there clearly exists an unmet medical need for a drug that has a strong efficacy and safety profile.
